Document Milestone Checklist

Below are expected timelines for specific sections of the NGIC documentation templates as a quick checklist. However, please refer to the templates for the latest updates on timing of sections: Documentation Templates

All Documents: Revision Numbers

Each submission (SRR, PDR, CDR, TRR, and FDR) gets a 0.# revision number and its own row in the Revision Table. The final submission after FDR feedback is version 1.0.

Gathered by Document

Within each document, sorted by First Draft date and then by document order.
